# MOREY'S BIGFOOT EP GREASE

MOREY'S BIGFOOT EP GREASE is a superior Lithium Complex Grease to provide excellent lubricating qualities over a wide range of temperatures. Designed for work under the toughest conditions in operating temperatures from 4°C to +200°C, with excellent mechanical and chemical stability. BIGFOOT is the grease designed to always "stay in place" under the worst operating conditions of water-dirt-mud, providing maximum protection.

## Features & Benefits:

- Outstanding wide operating temperature range grease.
- 4°C to +200°C operating temperatures.
- Unequalled water washout resistance.
- Excellent shock load-carrying ability.
- Rust and corrosion inhibited to protect metal.
- Adhesive tacky grease that "stays in place".
- Available in a convenient 80gm sachet for 5<sup>th</sup> Wheels.
- Extreme pressure protection – exceeds 75 pounds on Timken OK Load Test.
- Dyed Fire Orange to better detect defective bearing seals.
- Grease "stays in place" – less frequent regreasing required.
- Oxidation inhibitors permit operations up to 150°C for extended periods.
- Less equipment down time.
- NZFSA Approved C 11.
