

BRAKE SHOE KITS

MG1A & MG2A friction material offers strong brake power for a wider range of vehicle application, excellent performance in high temperatures and outstanding value.

FEATURES & BENEFITS

BRAKE SHOE

- 5 or more long & deep weld points ensuring superior integrity between table and web
- Induction hardened anchor and cam ends for lower wear rates and longer life
- Brake shoes are individually tagged for traceability
- Proudly Riveted in Australia 

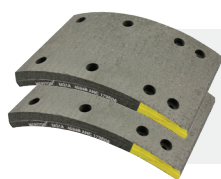

BRAKE LINING

- Offer higher service life improvements than competition
- Provides consistent performance over entire temperature range and trip distance
- The MG1A and MG2A are Asbestos free
- Superior Fade and recovery characteristics

HARDWARE KITS

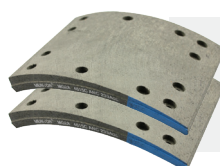

- Heat treated, hardened rollers for reduced wear and longer life.
- Shot blasted springs to prevent stress fracture

PERFORMANCE ADVANTAGES

MG1A offers:

- Excellent fade and recovery
- Exceptional stopping power
- Outstanding reliability and durability

MG2A offers:

- Durability for stop-and-go urban driving
- Strong brake power for all vehicle applications (including vocational and severe service)
